Chemical Principles (Zumdahl and Decoste)

Textmap Alternative

- Front Matter
  - Front Matter

- 1: Chemical Foundations

- 2: Atoms Molecules and Ions

- 3: Stoichiometry
4: Chemical Reactions

5: Gases

9: Thermochemistry

12: Atomic Theory and Quantum Mechanics
8: Aqueous Solution Equilibria

- 13: Bonding General Concepts

- 14: Covalent Bonding

10: Entropy, Gibbs Energy, and Spontaneity
11: Electrochemistry

15: Chemical Kinetics

16: Liquids and Solids

17: Solutions
18: The Representative Elements

19: Transition Metals and Coordination Chemistry

20: The Nucleus A Chemists View

21: Organic and Biological Chemistry
6: Chemical Equilibrium

7: Acids and Bases
