This general chemistry text places an emphasis on organic chemistry and is designed for students in nursing and related fields.

- Front Matter

- 1: Chemistry as a Science

- 2: Measurements and Density
3: Matter

- 4: Atoms, Elements, and the Periodic Table

- 5: Compounds- Ionic and Covalent

- 6: Chemical Bonding
7: Chemical Reactions

- 8: Quantities in Chemical Reactions

- 9: Solutions

- 10: Equilibrium
11: Energy and Chemical Processes

12: Solids, Liquids, and Gases

13: Acids and Bases

14: Organic Chemistry - Alkanes and Halogenated Hydrocarbons
