Remixed for Honolulu Community College CHEM 100: Chemistry and Society. A non-mathematical descriptive overview designed to give the non-science major a basic understanding of chemistry, particularly as it relates to problems of society and the environment.

- Front Matter
- 1: Chemistry, Matter, and Measurement
- 2: Elements, Atoms, and the Periodic Table
- 3: Ionic Bonding and Simple Ionic Compounds
- 4: Covalent Bonding and Simple Molecular Compounds
- 5: Solids, Liquids, and Gases
- 6: Solutions
- 7: Chemical Reactions
- 8: Acids and Bases
- 9: Oxidation and Reduction
- 10: Organic Chemistry
- 11: Biochemistry
- 12: Air
- 13: Water
- 14: Earth
- 15: Energy
- 16: Nuclear Chemistry
- 17: Nutrition
18: Drugs
   ◦ 19: Household Chemicals
   ◦ 20: Hazardous Materials
   ◦ Back Matter
