• CHEM 3110: Descriptive Inorganic Chemistry

- Front Matter
- 1: Introduction to Inorganic Chemistry
- 2: Atomic Theory
- 3: Bonding Theories
- 4: Molecular Symmetry and Point Groups
- 5: Structure and Energetics of Solids
- 6: Acid-Base and Donor-Acceptor Chemistry
- 7: Reduction and Oxidation Chemistry
- 8: Coordination Chemistry - Structure and Isomers
- 9: Coordination Chemistry - Bonding
- 10: Coordination Chemistry - Reactions and Mechanisms
- 11: Organometallic Chemistry
- 12: Bioinorganic Chemistry
- Back Matter
