A cyclic thioketal is the sulfur analog of a cyclic ketal.

eg. 1:

```
  O           S
CH₃       CH₃
OCH₃       SCH₃
```

cyclic ketal  cyclic thioketal

eg. 2:

```
  O           S
CH₃       CH₃
O        S
CH₃       CH₂CH₃
```

cyclic ketal  cyclic thioketal

eg. 3:

```
  O           S
CH₃       CH₃
O        S
```

cyclic ketal  cyclic thioketal

see also cyclic thioacetal
